

CODEMARKED WEATHERBOARD

Clelands Timber Products have over a 100 years' experience in the timber industry and produce a CodeMark approved Complete Weatherboard System. NZ radiata pine is processed at our New Plymouth based facility including, scanning and removal of defects, finger jointing, machining our many finishes, treating, pre priming and packaging.

Clelands Timber Finger jointed Weatherboards

This is a premium cladding product made from plantation grown Radiata Pine and complies with the relevant NZ Standards.

- Stronger
- Straighter
- No knots or holes Guaranteed
- Time proven durability
- Cost competitive
- Proven weather tightness
- Environmentally friendly product

LOSP H3.1

LOSP H3.1 is an effective preservative designed to provide lasting protection for wood products used in external situations above ground protecting against decay and insects. The timber is treated in finished form which improves its dimensional stability. This LOSP product comes with a 25 year guarantee against fungal decay and insect attack. Water repellent to reduce general uptake of moisture

Priming

Our primer is a machine coated alkyd oil based primer designed as an adhesion coat for the next coat of paint. This primer does not waterproof the timber but does slow water uptake. Radiata Pine contains tannin which can cause paint to turn brown. Our primer blocks the migration of the tannin into the paint coating eliminating the discolouration of the painted surface.

Clelands Timber

WITH ROOTS IN THE TIMBER INDUSTRY DATING BACK TO 1916, OUR EXPERIENCED TEAM HAVE A WEALTH OF KNOWLEDGE MANUFACTURING BUILDING AND FINISHING PRODUCTS FROM SOLID AND FINGER JOINTED TIMBER.

Our entire team takes pride in producing a wide range of premium quality New Zealand made products ranging from Weatherboard systems, Fascia, Window Reveals, Door Jambs, through to laminated structural Beams and Posts.

We believe providing a quality service is an integral component to producing quality products. Our customers often comment on the benefits of our flexible order quantities- we don't have a minimum order quantity, if you require a single length for one project and a full pack for another, we're only happy to accommodate.
